

HEAVEN ON EARTH

Heaven on Earth was founded in 2000 with humble beginnings and to this day, our mission remains consistent: to transform the lives of homeless cats through rescue, sanctuary, and new beginnings.

ADOPTIONS

We adopt cats and kittens that have been rescued from Los Angeles City and County shelters and surrendered to us from private owners. Adoptions take place at Perry's Place, our 5,500 sq. ft. adoption center, at PetSmart Store adoption locations including Santa Clarita and Tujunga, and through our partnership with Best Friends Animal Society, at their NKLA Pet Adoption Center.

SPAYSHIP

Founded in 2009, our SpayShip Transport Program helps facilitate the spay/neuter of community and owned cats. Our free services include transportation to FixNation where cats are altered, trapping assistance and public education. Since the program's inception, SpayShip has serviced 7,600+ cats and in 2019, 901 cats were altered.

HEAVEN ON EARTH ANIMAL CLINIC

In collaboration with LAAS, we run the veterinary clinic at the West Valley Animal Shelter where we contract to alter adoptable shelter animals and provide no or low-cost spay/neuter services to owned animals through the City's voucher program. We also provide low-cost services to the public including a bi-weekly walk-in wellness and vaccine clinic

FOSTER

Our foster-to-adopt program provides flexibility for potential adopters who are considering adopting a new family member but are not yet fully committed. Our foster hospice program allows our elderly and chronically ill cats to live out their lives in the comfort of a loving home, while we provide lifelong medical support.

Dude

2019 Highlights

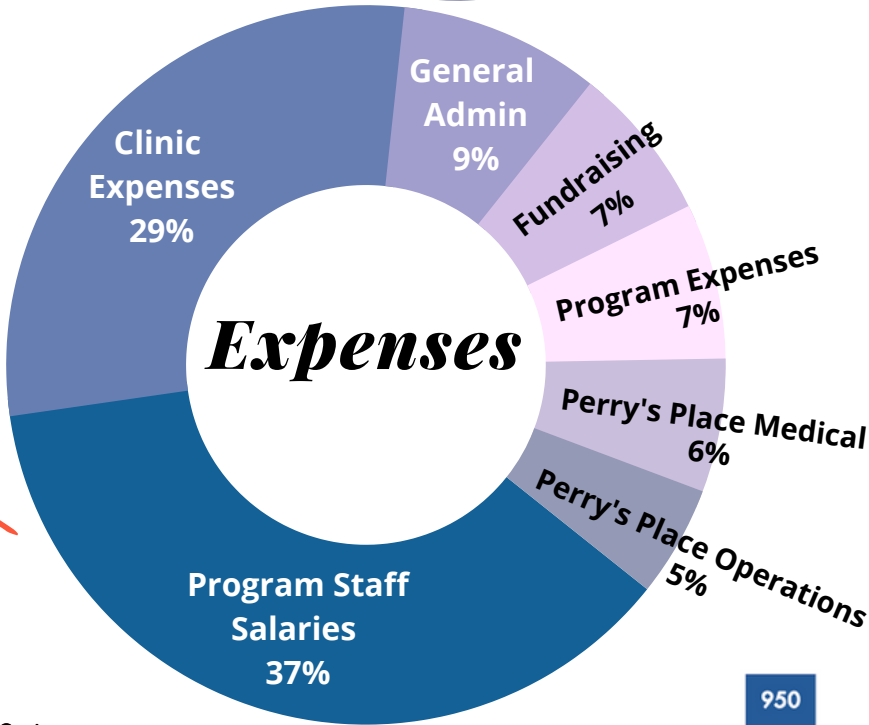

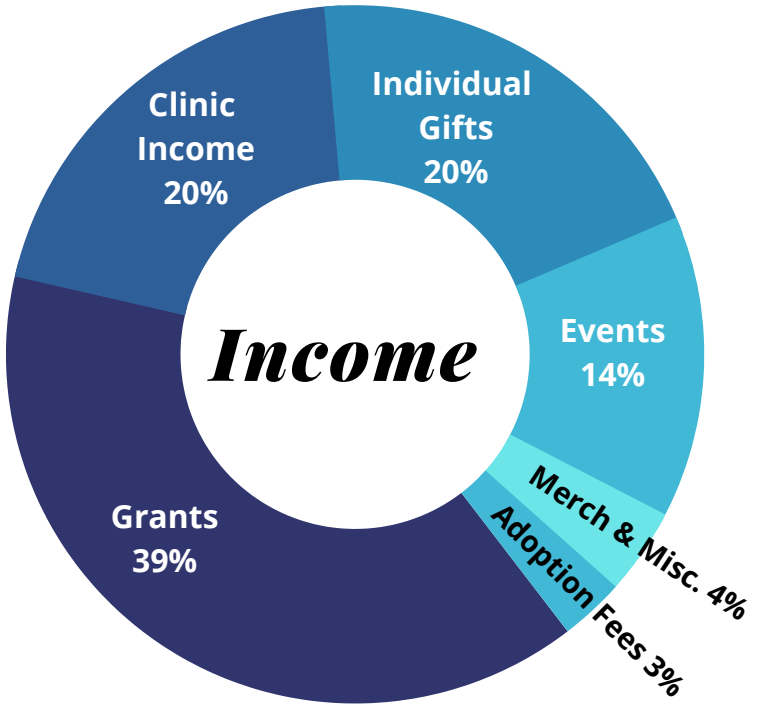

Pulled **950** cats from Los Angeles City and County shelters.

Adopted **743** cats into loving homes.

2020 Vision

Next year we celebrate Heaven on Earth's 20th year as an organization. We have grown tremendously from the tiny foster-based rescue started in 2000, thanks to our wonderful supporters, donors, volunteers & staff. As 2020 begins, we focus on continuing our lifesaving mission for the next 20 years to come.
